NARCISSUS EMPRESS.

Prices quoted herein include duty and are void after July 20, and subject to market changes without notice.

Independence, Mo., May 26th, 1902
I must say that your Tulips and Hyacinths of last year were all I could expect and average good.

Also Daffodils and Paper White turned out well.
Yours truly, ALFRED BROMAN,

CHICAGO, April 15th, 1902.

I have much pleasure in saying that the bulbs which you furnished me with last fall turned out very satisfactorily. The Tulips were fine, especially your Fancy "La Reine" and Yellow Prince. I was also very well satisfied with the *Lilium Longiflorum Giganteum* of which I had 2000. They gave me better returns than any other Lilies which I had from other parties. I am going to increase my order for these this year.

FRANK GARLAND.

DUTCH ROMAN HYACINTH BULB
12 to 14 CENTIMETER SIZE

TO FLORIST GROWERS OF

Forcing Bulbs, Azaleas,

and Like Imported Stock.

The largest general stock of high grade Forcing Bulbs and Plants handled in America.

We make you **first early** shipment of all kinds of forcing bulbs which are required for Thanksgiving and Holiday forcing, saving two weeks of important time over orders you place in France or Holland.

Quality with right prices is what we insist on from all our foreign growers.

Stock bought of us will be A No. 1 on delivery and if not satisfactory then in every way may be returned or exchanged.

We invite the most critical inspection on arrival and customers are not expected to keep or use any that are not as represented herewith.

We ship no plants or bulbs in original cases without inspection at New York or Chicago.

We Ship From Chicago or New York.

If any of our stocks open up poorly on arrival we can replace them with satisfactory stock within five days, at original prices. Rejected stock from Europe cannot be replaced under six weeks, or must be repurchased here at advanced prices and delays.

By combining your entire order with us we accept responsibility for delivery of all the stock at the right time, and of the best grades that can be furnished.

IMPORTANT

Beginners in the use of forcing bulbs or other forcing dormant imported stock (or any other plants we sell), are invited to ask us for special growing instructions on any kinds they are not familiar with. We can supply the same from the best sources.

Our Rule, "All Florists' Stock in Season."

VAUGHAN'S PROLIFIC CALLA, (new)

This splendid novelty while much like the common Calla has such definite points of added merit that it is, in our opinion, sure to take the place of the old variety. These improvements are—

FIRST—It will produce $\frac{1}{3}$ more flowers than the ordinary Calla.

SECOND—The flowers while equally large are a little more round and are decidedly purer white. This improvement in color is plainly marked as they grow side by side in the field or greenhouses.

THIRD—The plant is from 6 to 8 inches shorter and of stockier growth. Better for pots.

FINALLY—It is remarkably prolific, each root producing as offsets a number of small tubers each season. Of the various Callas introduced recently, Yellows, Dwarfs and others, none have proven a real value to the florist forer of cut flowers, but in Vaughan's New Prolific we believe an advance has been made which will take the place of all other Callas for cut flower purposes.

Price, bulbs $1\frac{1}{4}$ to $1\frac{1}{2}$ in diameter, doz., \$3.50; per 100, \$25.00.

VAUGHAN'S CALIFORNIA. GROWN CALLA BULBS.

Our relations with Florist Calla Bulb growers on the Pacific Coast are complete. Our growers thoroughly understand raising, curing and shipping this stock.

The use of Callas as a partial substitute for Lilium Harrisii and Longiflorum has increased the demand and sale of the former very much. We have never been able to fill all orders for the larger sizes, but have engaged this year more than ever before. We would however urge early ordering as the demand for these bulbs has exceeded the supply every season for the past few years.

JAPAN LILIUM LONGIFLORUM

1. Regular.
2. Multiflorum.
3. Giganteum.

L. LONGIFLORUM (Regular Type.)

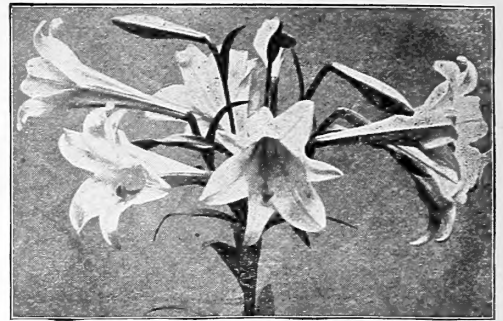

We are inclined to believe that the variations of types seen so often in benches of these plants forced under glass, comes in part from too early digging in Japan, and possibly occasionally from some fault in growing with no doubt occasional real variation in types. Our Japan growers promise us careful inspection and say they will not dig the bulbs until well ripened. Keeping this in mind our prices below make this grade an attractive purchase.

L. LONGIFLORUM MULTIFLORUM (Early.)

Our Japan grower does not claim that this type will produce more flowers per bulb, but they do so, all bulbs being well ripened, plants from these should flower ten days earlier and should show uniform growth, height, foliage and flowers. In fact, our growers promise us at least 80 per cent. true to type. Our customers have had generally better results from our stock of these than any other bulbs purchased elsewhere.

LILIUM LONGIFLORUM. JAPAN GROWN.

L. LONGIFLORUM GIGANTEUM

(Dark Stem)

While this is supposed to be the latest of the three it has flowered this past season under careful test in the South Park Green-houses, Chicago, rather earlier than either of the other two, though dug and shipped later from Japan—showing for a certainty that well ripened bulbs will flower earlier than those dug too soon and that those who crowd nature's work only lose time in the end. This type is very free flowering and true.

LILIUM HARRISII

Indispensable for Early Forcing.

Our own growers pack all our Bermuda bulbs and personally grow half our supply. Careful attention to the growing crop, weeding out diseased plants, proper grading of the bulbs when dug, business like packing and handling, all go to make success with Harrisii. We invite your orders under these conditions. Our bulbs will pay you.

The 7 to 9 and larger sizes will be scarce. We prefer that buyers use a part of 5 to 7 grade with orders for 7 to 9 at these prices:

LILIUM CANDIDUM

"Thick Petaled."

This has been very satisfactory and profitably forced by several customers this past season. It comes free from disease, even and pays. We furnish cultural directions for forcing.

It is known to most growers of this Lily that there are two strains. The flowers of each show in substance a marked difference. The better one shows a wider flower, with petals much more firm and greater substance. We import at a much larger cost the true "THICK PETELED" bulbs and they have given our customers excellent satisfaction. We offer it as the best and most substantial type of Liliium Candidum.

At this writing the prices of French growers and dealers are uniform; therefore, the question for the American jobber and planter as well is, where to obtain the highest, best graded stock, bright, sound and free from gummied, discolored, ill shaped, or diseased Bulbs.

We know by years of experience reliable sources and have secured such stock, paying full prices. We shall quote **such Bulbs only**. Look out for quality if prices are cut. So far there is no reduction in prices in France **but there is much difference in qualities**.

NARCISSUS.

Paper White Grandiflora.

(SEE CUT AT BOTTOM OF PAGE).

It is a well-known fact that of late years t'is Narcissus has shown a tendency to come blind and especially so when grown from small bulbs

In placing our contracts with French growers we are careful to secure the largest bulbs that are obtainable and the grade of these which we offer under the name of "Star" brand is the choicest stock to be had in France, and we are only able to obtain each year a limited number of them. Our experience has been that they are well worth the difference in price over the smaller grades. However, the quality which we offer under the heading of "Fancy" is a selected grade from the regular stock. As stated before, our supply of Giant-Flowered is limited, and early orders are necessary to secure them.

Paperwhite, Grandiflora, "Star Brand" Giant-Flowered. Per 100 \$1 25; per 1000, \$11 00.

Paperwhite, Grandiflora Fancy. Per 100, \$1.00; per 1000, \$8.25.

Double Von Sion TRUE DUTCH

"Fancy" cut blooms of high grade flowers sell out while common stock goes to the dump barrel or sells at half price. Our XXX Mammoth Double Nose will produce the "Fancy" kind and will usually sell in the market at fancy prices when "regular" stock will not bring the original cost of bulbs. Our supply of these is especially grown by one of the best Daffodil firms in Holland and can be depended upon. Particularly recommended for growing in pans as illustrated in cut opposite.

(Note: Owing to short crop of these last season one of our growers supplied us with fancy single nosed bulbs claiming same would produce 2 flowers. If any of our customers have been disappointed we are ready to adjust the matter on being advised.)

WE OFFER 3 SIZES OF VON SION.

VON SION, XXX Mammoth Double Nosed Bulbs, largest and finest roots our growers can select for us, eachbulb will bring 2 and more flowers. Per 100, \$2.00; Per 1000, \$17.00.

VON SION, Fancy Selected Bulbs Per 100, \$1.40; Per 1000, \$12.00.

VON SION, First Sized Bulbs. Per 100, \$1.00; Per 1000, \$9.50.

FRENCH GROWN TRUMPET MAJOR

FOR CHRISTMAS FORCING.

We offer these bulbs this season for the first time and are pleased to recommend them for Christmas forcing. While the flower is not quite so large as the ordinary Trumpet Major, it is of good substance and color and coming into bloom when it does it has the market to itself, commanding good prices. Price per 100, \$1.25; 1000, \$10.00.

CHINESE NARCISSUS.

LILY OF THE VALLEY.

We offer the three highest grades of Lily of the Valley Pips which the Hamburg district produces. Our "London Market" brand is the same select pip as is forced for Christmas sales by the London Growers. It is the finest selection made, producing often 12 to 15 bells and well worth the price asked for it. That "Cheap Valley" is always dear has been proven by every experienced grower. For medium and late forcing our "Premium" brand will satisfy every one. We shall deliver this stock as early as the same can be secured from the growers after maturity. Pips will be of the best quality which the season affords, carefully grown, as well as ripened and of full size. Such as with proper handling ought to give most satisfactory results. We pay our growers more than the market price to be sure of picked stock.

Vaughan's London Market Brand

FOR CHRISTMAS FORCING.

We introduced this select Christmas forcing pip to our Florist customers some years ago, and it has given excellent satisfaction. The pips are large and plump with long fibrous roots and if given proper treatment can easily be had in flower by Christmas. There is but one "London Market" quality and we control the selected pips of the entire crop, which is limited.

FREESIA REFRACTA ALBA.

This is one of the most profitable and useful bulbs a florist can grow. Equally good for forcing or pots and can be had in flower from Christmas on if properly grown. A good way to grow these is to plant the bulbs around carnation benches, in this way utilizing space which is going to waste.

White Flowers and Large Bulbs are to be had from the stock quoted below. We always believe in selling this stock by samples and are ready to submit same for comparison as soon as bulbs arrive. Freesias arrive the earliest of the Fall bulbs.

"MIKADO FERN BALL."

Will Grow and Thrive Under the Most Adverse Conditions. A Profitable Fern for Easter Sales.

NEW IMPORTATION ARRIVES FROM JAPAN ABOUT DECEMBER

This beautiful novelty is an importation from Japan and is certainly the finest addition to the Fernery yet introduced. The Ball is composed of the Japanese Island Fern Roots and Sphagnum Moss, and so constructed as to send out leaves of beautiful emerald green from every point. They grow rapidly, and make a handsome ornament for the home, conservatory or greenhouse.

DIRECTIONS FOR STARTING—Place ball in water for 15 minutes and then suspend in any desired position; repeat every two days until growth is started, after which sprinkle occasionally as required. To use in fern dish, cut ball in halves, placing flat side down, thus getting two dishes of beautiful ferns. The Fern Ball may be allowed to dry up at any time and be set away, and started again by watering as before.

VAUGHAN'S INTERNATIONAL PANSY MIXTURE.

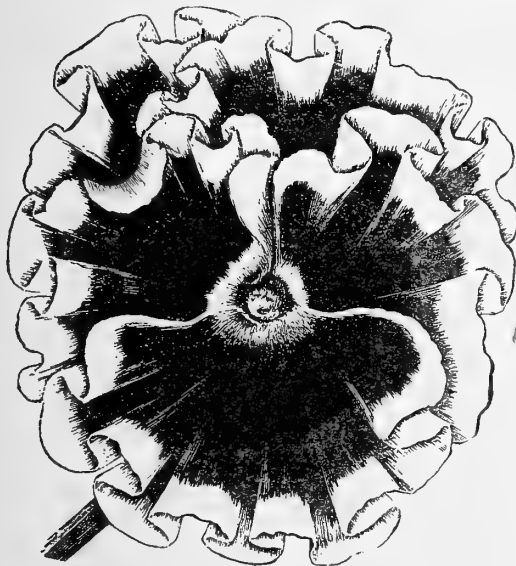

Three Medals Awarded.

THE WORLD'S BEST. This is a combination of as many separate colors, types, blendings and unique kinds as can be found in the world. It has been made up and sold by us for fourteen years; it is the best general mixture in existence and is most widely known and popular. It is used by most florists. It received the highest award at the Columbian Exposition and was awarded the gold medal at Omaha in 1898 and Buffalo 1901. It contains the cream of the Pansies listed on this page and besides 8 different strains, the crack selections of noted Pansy specialists, which we purchase every year especially for this mixture and which cannot be had in any other way. We beat the world on Pansies. Price, per oz., \$10.00; ½ oz., \$5.00; ¼ oz., \$1.50; trade pkt., 50c.

VAUGHAN'S "GIANT PANSY MIXTURE." Embraces, besides all the above shades and colors, five special strains not listed elsewhere in this Catalogue and which can only be had in this and our International Pansy. This mixture includes the richest reds, coppers and bronzes, together with the most delicate rose and pink shadings, all the distinct colors of Trimardeau, the splendid Cassier strain with its delicate veinings. We have spared no expense to secure the newest, richest and finest sorts.

Price, ¼ lb., \$14.00; oz., \$4.00; ½ oz., 60c; trade pkt., 25c.

PSYCHE.

MASTERPIECE—NEW GIANT

CURLED.

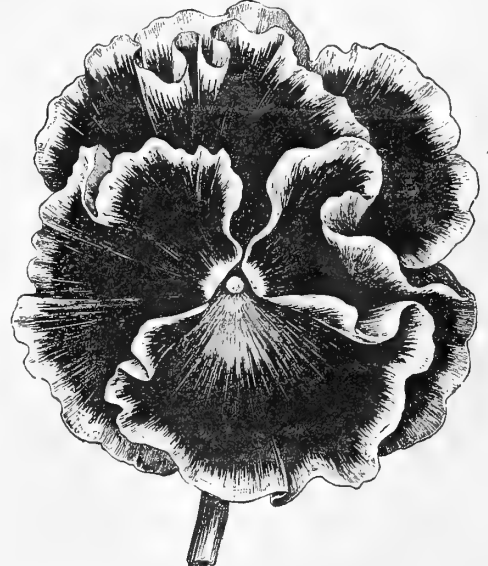

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. We have seen these Pansies in bloom in the originator's grounds and have therefore personal knowledge of their exceptional merit.

Trade Pkt., 50c.; ½ oz., \$1.50.

PSYCHE. Not one of the many Pansy varieties has such a winning appearance as Psyche. The plant is perfect in habit and very floriferous. Each flower is elegantly curled and undulated and in every respect a beauty in form and color. The characteristic five velvety violet blotches or eyes are surrounded by a broad white edge. Comes true from seed. Trade Pkt., 35c.

VARIABILIS. Salmon, buff and terra cotta shades mixed. These shades are entirely new additions to the already large variety of colors found among Pansies. Pkt. (200 seeds), 10c.

DIANA. Pure cream color; an entirely new shade. Pkt. (200 seeds), 10c.

MASTERPIECE.

GIANT PHEASANT'S EYE. Pretty four-colored variety of the Giant class. Pkt. (200 seeds), 10c.

GIANT BRONZE-COLORED. Rich metallic shades. Giant flowers. Pkt. (200 seeds) 10c.

NEW GIANT MADAME PERRET. This novelty is specially distinguished from other Pansies by the plant being full and spreading with very broad and extremely dark green leaves. The straight and stiff stems it possesses cause the flowers to stand out well from the foliage. The color of the blossom ranges through all the shades of red from a pink to a fine deep purple, with an intermediate bright red edged with white. Pkt. (200 seeds,) 15c.; 2 for 25c.; ½ oz., 50c.

EMPRESS AUGUSTA VICTORIA. A charming new sort. Color porcelain-white with a soft bluish cast. The upper petals are margined violet, while the lower petals are marked with a large purple blotch. Exposition. Pkt. (250 seeds), 10c.; ½ oz., 40c.

NEW GIANT SWEET-SCENTED. The flowers of this choice strain are of enormous size, in Spring and Fall, often measuring 4 inches across, and have a much stronger fragrance than any other Pansy. Pkt., 25c.; 3 for 65c.

FAIRY QUEEN. As a bedder, or as a solitary plant, this is a remarkably effective new Pansy. Size very large, color pure sky-blue, splendidly bordered with white, producing a distinct effect and a delicacy of color combinations which is rare. Pkt., 10c.; ¼ oz., 30c.; oz., \$1.00.

VAUGHAN'S "Rose Grower" BONE MEAL

This is a Special Brand we Have Put Up for Our Trade. It is Ground Fine, Hence Acts Quickly.
Free From Acid, very Light in Appearance, and a Superb Article.

IT IS made from bone accumulated in large slaughter houses, and should not be compared with the Bone Meal made from cattle heads and feet gathered up in the Western prairies. Such Bone Meal, which is dark in color, is flinty in character, slower to act and not nearly so desirable as our "Rose Grower" bone. Furthermore, the bones of many diseased animals are used in the manufacture of that dark bone meal, and it is therefore a little dangerous. Our "Rose Grower" bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. The finer bone is ground, the quicker the mild acid thrown out by the tiny roots of the plants can dissolve the bone and make use of it as food. A finely ground bone can also be more evenly distributed through the soil. **Analysis:**—Ammonia, $4\frac{1}{2}$ to $5\frac{1}{2}$ per cent. Total phosphoric acid, 22 to 25 per cent. Total bone phosphate, 48 to 54 per cent.

PRICE 5 lbs., 25c.; 10 lbs., 40c.; 25 lbs., 60c.; 50 lbs., \$1.00; 100 lbs., \$2.00; 200 lbs., \$3.50; 500 lbs., \$8.00; 1000 lbs., \$15.50; 2000 lbs., \$30.00.

“EUREKA” WEED KILLER.

The Gardeners Friend.

**Keeps Gravel Paths and Drives clear of
Weeds, Moss, &c.**

Insures clean bright Gravel.

Dear Sir,—

The “EUREKA” WEED KILLER is a Powder that instantly dissolves in Cold Water, and if applied to Paths and Drives by means of an ordinary Water Can or “Rose” will kill all Weeds, Moss, or other unsightly growths and keep the ground free. A Tin, costing \$1.00, contains sufficient to dress 100 square yards of Paths. Compare this with the cost of Hand Labour and remember that one application will keep the Weeds under for 12 months and there is no need to disturb the Gravel or Paths. If you will refer to the enclosed Pamphlet you will find that the “EUREKA” WEED KILLER is being successfully used in Europe, &c., and since its introduction into the United States the trials have been most satisfactory and it is now being used by many of the largest owners.

A Trial Tin will be mailed direct to you on receipt of \$1.00 and Name of nearest Agent will be sent. Please send your Order to—

**VAUGHAN'S SEED STORE,
84 & 86 Randolph Street,
CHICAGO, Chief Agents.**

(AGENTS WANTED WHERE NOT ALREADY APPOINTED).

Please try a Sample Tin. Not the least danger in using this preparation. The “EUREKA” is superior to the Liquid preparations. It is a perfectly soluble Powder, No fear of leakage, and is a positive Weed Killer.

BOSTON FERNS. *Nephrolepis Exaltata Bostoniensis.*

This popular Fern has proven one of the best decorative plants of recent introduction. It is a rapid grower, works up fast and is a good seller. The distinctive feature of this beautiful Fern is, the fronds are much larger than the common Sword Fern and do not stand so stiff, but droop over in a graceful manner. Excellent for making large specimen plants. Every florist should grow the Boston Fern. We have the finest stock in the West. All our plants are pot-grown, bushy stock, well furnished with fronds from the pot up, and cannot be compared with the cheap, long-drawn-up, lifted stock from the bench. A sample shipment will convince you of our superior stock.

GLOIRE DE LORRAINE BEGONIA.

GLOIRE DE LORRAINE BEGONIA.

Ready Now!! Insures Fine Thanksgiving and Xmas Plants.

Gloire de Lorraine.—This is undoubtedly the greatest gem in winter-flowering Begonias yet introduced, and is certain to become a popular favorite. It grows from ten to twelve inches high, forming natural graceful bushy specimens, which from October to April are completely hidden in soft, rosy pink flowers.

Many thousands have been grown throughout the country the past winter for Christmas sales, selling at the highest prices. It has been used by the Chicago florists for centerpieces in table decorations. Young plants bought in June and July will make fine specimen plants for Christmas sales in 6 to 8 inch pots, which sell for \$1.00 to \$5.00 each. If planted in 6 or 8 inch wire hanging-baskets, will make a grand show.

We will have 25,000 strong healthy plants, well established in 2½ inch pots, ready to send out latter part of June and July. You cannot afford to be without this grand Begonia. Get your order in early to assure early shipment.

Price, from 2½ inch pots, for June and July delivery, per doz., \$2.00; per 100, \$15.00; per 1000, \$140.00.

All orders east of the Ohio River will be sent prepaid.

ORDERS FILLED IN ROTATION AS RECEIVED.

BOOK YOUR ORDER NOW FOR THE TWO GRAND NEW CARNATIONS.

REMEMBER WE CAN GIVE YOU JANUARY DELIVERY ON ENCHANTRESS.

ENCHANTRESS.

This new ten thousand dollar Carnation has the following points of merit:

COLOR. A very pleasing shade of light pink, deepening toward the center; far superior to Daybreak at its very best.

SIZE. Three and one-half inches and over. When fully developed, over four inches in diameter.

FORM. The guard petals are broad, well arranged and of great substance; the center full and high; very attractive and of fine form.

CALYX. Does not burst.

STEM. Is strong and stiff, averaging two to three feet in length.

HABIT OF GROWTH. Both out of doors and in the house the growth is ideal; very healthy and of vigorous constitution.

BLOOMING QUALITIES. Very early, free and continuous. Needs no special culture to develop its magnificent blooms, producing quite as freely as any carnation to date. Sells at sight for highest prices and "enchants" all who see it.

ADONIS.

The Finest Scarlet Carnation Yet Produced.

It is a free grower, compact in habit, with stiff, erect stems which average 2 feet and over, in height; the grass is of medium size, not a superfluous blade on it, covered with the "bloom" of good health. It can be spaced 10x10 inches on the bench.

During the entire past year it has been in perfect health, entirely free from rust, bacteria, and stem rot; it has been a pleasure to work with it;—it succeeds under similar treatment to that given to Crane. It is an "easy doer" while requiring plenty of air, food and water.

Form perfect, and quite distinct, not crowded with petals which fact allows it to develop its flowers in much less time than any other "fancy" carnation. It is as early as the best of the standard sorts, extremely free and quite continuous; one of its strong points is, that it does not lose in size or brilliance as warm weather comes on.

The "Young Adonis" is an Athlete among carnations, and we shall watch with interest the advent of a worthy rival in its color, for Adonis has a brilliance and a beauty by which all other red sorts pale and fade while at the same time it surpasses all other reds in size.
